NEWS RELEASE

Announcing New Copper & Brass Fabricators Industry Resource CBFC.us

WASHINGTON, DC - February 16, 2011 – Today, the Copper and Brass Fabricators Council (CBFC) announced that it is now offering a new resource to its members and the public—tracking the policy and regulatory issues of critical importance to brass mills and those who are concerned about the vitality of the industry and the many jobs that it supports within the United States.

"We hope that CBFC.us becomes a meeting place for industry representatives, legislative representatives and their staffs, and others within the community that count on the continued strength of this vital domestic industry," said David A. Hartquist, the association's President and General Counsel.

"Most importantly, we hope existing and future CBFC members find CBFC.us to be a valuable source of information on policy and regulatory issues impacting the industry, activities of the Council, and opportunities to get involved," Hartquist said.

For information on joining the Copper and Brass Fabricators Council, please contact David A. Hartquist by phone at: (202) 342-8450 or by e-mail: dhartquist@kelleydrye.com.
